

HOTEL PALACE

THE BEST MEETING PLACE IN THE CITY

The location of Hotel Palace by the Vabaduse square, just a few hundred steps from the Old Town, is ideal for visiting the most eye-catching sights but also for the busiest business trips.

Architect Elmar Lohk designed the building that is one of the most glamorous and with the fanciest ambiances in Tallinn, to be a hotel where Estonia is represented at its best level, and the 79-room business class hotel has served as a real business card of Estonia over the years. The cornerstone of the building ensemble situated by the most prominent square in the city was finally laid during the golden age of the pre-war Republic of Estonia - in 1937.

The first ever building in Tallinn, which was specially designed as a hotel is one of the most exciting, glamorous and fanciest buildings, which was fully renovated in 2014.

The hotel with the new interior continues at its dignified course, being a traditionally modern beacon in the heart of Tallinn while preserving its classic atmosphere supplemented by contemporary interior design.

The keywords of the new interior design of the hotel are elegance and sophistication, the design language of the 1930s furniture and fragments of the art of Konrad Mägi. Konrad Mägi (1878-1925) can be considered a miracle of the Estonian art. For Mägi, art was not an imitation, but always self-expression, personal fulfilment and creating a new world on the basis of the impressions gathered from the outside world.

RESTAURANT KONRAD

Konrad offers his guests the things he values himself.

He likes classic European cuisine, prepared from quality products and which has to be simple even when served in modern style. Not simply cooked but simple in construction and clarity of flavours. Konrad wants his guests to understand what they eat.

Konrad loves fresh bread, pastries and pies and is happy to sell them to you to take home.

Besides Estonia, Konrad loves Italy also.

Welcome to the most legendary hotel in Tallinn!
